MINTERRORNEWSTM MAGAZINE

Bringing the latest mint error news to the collector.

Mike Byers, Publisher & Editor Welcomes You!

Welcome to Mint Error News Magazine, bringing the latest mint error news and information to the collector. This is our fourth year bringing you both a print magazine and an on-line PDF magazine. There are now over 270 articles, features, discoveries, news stories, and mint error related info from the United States and around the World. Minterrornews.com has become the most popular and informative Internet resources for mint errors and is read by thousands of dealers and collectors.

Two major Mint Error News sponsors are Mike Byers and ANACS. Mike Byers is the Publisher and Editor of Mint Error News Magazine.

Mike Byers (mikebyers.com) has been a Professional Numismatist since 1978. He specializes in U.S. and World errors, and is now the largest dealer of the world's rarest mint errors. His new discoveries of major mint errors has been front page news for years. Mike Byers is also a Consultant for ANACS for Mint Errors.

Mike Byers is a life member of ANA since 1985, a charter member of NGC and a featured dealer/member of PCGS. He is also a founder member of the California Coin & Precious Metals Association, a life member of the Central States Numismatic Society and a member of ICTA.

ANACS is one of the three major grading services. They have been authenticating, certifying and encapsulating mint errors since 1991 which is years longer than the other two grading services combined. ANACS is highly respected in the Numismatic Community and has extensive experience in authenticating mint errors.

Two other sponsors to minterrornews.com are Tim Bullard (errorcointrader.com) and Allan Levy (alsocoins.com). Because of their combined experience and insight of the error coin market, they will bring valuable news and information to minterrornews.com.

Additional sponsors are CoinLink, CoinFacts.com, errorworldclub.org, Eureka Trading, uspatterns.com, Northeast Numismatics and Robert L. Astrich. We encourage collectors and dealers to submit articles and photos of major mint errors that we may feature on the website.

Off-Center Errors

by Al Levy (alscoins.com)

Here are records of recent sales of off-center mint errors on eBay:

1. All coins were listed on eBay and closed from October 1, 2005 to December 31, 2005.
2. All lots had buyers. If the coins actually changed hands is unknown.
3. A picture accompanied each lot or it was not recognized.
4. Mislabeled items were ignored.
5. Some lots may have changed hands more than once.
6. "D" next to the date symbolizes that the coin had damage or was scratched.
7. "C" next to the date symbolizes that the coin was cleaned.
8. "B" next to the date symbolizes that the coin had damage and was cleaned.
9. If the date or mint mark was missing or partially visible, parentheses were used.
10. Postage/handling/insurance fees were ignored.
11. Major auctions were not listed.

Martha Washington Test Piece Struck on SBA Dollar Blank Planchet With Experimental Edge

by Mike Byers (mikebyers.com)

The U.S. Mint conducted metallurgical tests in 1999 on the golden colored manganese-clad planchets which would later be used for the Sacagawea Dollar.

For the first time, the U.S. Mint included representatives from Industry because the new Sacagawea Dollar would have to be completely interchangeable with the existing SBA Dollar. The electromagnetic fingerprint had to be identical. All of the metals combined changed the alloy's electromagnetic properties. Many tests were conducted including those at IDX Inc., Olin Brass and PMX Industries.

Martha Washington Test Piece Struck on SBA Dollar Blank Planchet With Experimental Edge

In a Coin World article on July 16th, 2001, James Halsey, President of IDX Inc. was interviewed. IDX Inc. is one of the firms contracted by the U.S. Mint to test prototypes. Mr. Halsey said “numerous samples in different alloys bearing the Martha Washington obverse and Mt. Vernon reverse dies - special designs used for experimental coinage - were shipped to IDX Inc. for testing. Some of the packages were insured for as high as \$250,000, with the recipients required to return any and all pieces supplied by the Mint for tests.”

Two other firms under contract by the U.S. Mint include Olin Brass and PMX Industries. Both of these companies supply the U.S. Mint with the manganese-clad strips from which the Sacagawea Dollars are struck. Olin Brass is a leading U.S. copper alloy producer and is located in East Alton, Illinois. PMX Industries is located in Cedar Rapids, Iowa.

According to a Coin World article in the June 24, 2002 issue, “anti-tarnish tests were conducted at the Philadelphia Mint on January 8, 2000, on

Sacagawea dollar blanks struck with the experimental Martha Washington obverse, Mount Vernon reverse experimental dies, according to Mint e-mails.” The article continued: “Seven processes were explored: one on circulation quality strikes, three on Uncirculated [Mint set] quality coins, and three on Proof quality strikes. The coins were struck on at least four different kinds of presses, with the blanks subjected to one of five burnishing methods.”

I discovered one of the three known Martha Washington Test Pieces struck on a Sacagawea Dollar blank planchet. It was certified by NGC as a dollar-sized test piece weighing 8.0 grams and was graded MS 66. It is listed as Judd #2185 on page 294 of eighth edition of United States Pattern Coins, Experimental and Trial Pieces.

This Martha Washington Test Piece struck on a clad SBA blank planchet was just discovered so obviously it is not listed in the 8th Edition of Judd, which photographs and lists other Martha Washington Test Pieces.

Experimental Edge

2001-S Proof Rhode Island Quarter Double Struck in Silver

Major Mint Errors on modern proof coins are very rare, especially those dated 2000 and later. This Proof State Quarter was double struck in the collar on both sides. To date, this is the only known proof State Quarter that is double struck and in Silver!

Mint Errors and Die Trials Bring Record Prices in 2006 FUN Heritage Auction

Editor's Note: All descriptions are from the Heritage Galleries 2006 January Orlando, FL (FUN) Signature Auction listings.

1800 \$1--Double Struck, Second Strike 15% Off Center--XF45 PCGS. B-15, BB-195, R.4. A moderately scarce variety among 1800 dollars, there are several diagnostics that identify this variant. There is a prominent die crack through the top of the O in OF, a die dot between the R and T of LIBERTY, and several die flaws around TES. However, of much greater importance is the double striking on this coin. This is a true rarity among early dollars and the few pieces that are known are quickly absorbed by collectors when they become available.

On this coin a wide arc of doubling is seen from 11 to 7 o'clock on the obverse and from 10 to 6 o'clock on the reverse. There is nothing subtle about the doubling on this coin. The stars on the right side of the obverse are all present to a greater or lesser degree on the first strike, and even the tops of TY are evident. On the reverse, OF AMERIC is almost completely visible with the tops of ES and the final A in AMERICA faintly visible. Closer examination shows that all the devices are doubled--of special note is the first date below the prominent date, the eagle's tailfeathers, and UNITED in the left reverse field. The surfaces are brilliant and the coin is generally well struck, except for the highpoint of Liberty's hair on the obverse. Lightly abraded with no individually distracting or significant marks on either side. A very rare and important double struck Bust dollar and of great importance to the collector of early dollars as well as error collectors.

\$34,500.00

1999-P SBA\$ SBA Dollar--Struck on a Sacagawea Planchet--MS64 PCGS. This is only the third example of this error we have handled, the last being four years ago in our 2002 FUN Sale. This rarity was apparently produced when a Sacagawea dollar planchet was fed into a press that was striking 1999-P Susan B. Anthony dollars. Other than being struck on the wrong planchet, this coin was properly produced, and both sides display well centered, well defined features. The surfaces are lustrous and softly frosted with none of the carbon spots that often plague Sacagawea dollars. There are, however, scattered abrasions on both sides. The surfaces display only slight blue speckling of color. This is a distinctly different coin from the other two pieces we have handled of this rare off-metal striking.

\$16,100.00

1965 1C Lincoln Cent--Struck on a Silver Dime Planchet--MS64 PCGS.

\$9,200.00

Mint Errors and Die Trials Bring Record Prices in 2006 FUN Heritage Auction

1910 5C Liberty Nickel--Struck on a Cent Planchet--AU58 PCGS.

\$5,462.50

1929-? 5C Buffalo Nickel--Struck on a Cent Planchet--MS64 Brown PCGS. Deep plum and olive colors dominate the obverse, while the reverse displays rich brown toning with glimpses of original red color. Lustrous and nicely struck for this rare error combination. The mintmark, if any, is off the flan, but the centering is otherwise good. About half of LIBERTY is off the planchet, and that legend exhibits the expected spreading toward the rim. A tiny spot is on the reverse rim at 7:30.

\$9,775.00

Mint Errors and Die Trials Bring Record Prices in 2006 FUN Heritage Auction

1968-S 5C Jefferson Nickel--Double Denomination on a Struck Cent--MS64 PCGS. PCGS does not venture a color designation, but orange-gold color dominates despite a few tiny aqua spots. The Lincoln Memorial is aligned with Jefferson's portrait, Lincoln's chin and profile emerge near the top of Monticello's dome. The 1968-S date and mintmark from the initial Cent striking are visible near the first U in UNUM.

\$4,600.00

1965 10C Roosevelt Dime--Struck on a Silver Planchet--AU55 ANACS. The clad 1965 Dime was struck at the same time as the silver 1964-dated Dimes, partly to use up remaining silver planchets, and partly to discourage contemporary hoarding of silver coinage. We don't know which facility this piece was struck at, since mintmarks were not placed on the 1965 dies, but the silver composition can be verified by the edge, obscured in this case by the ANACS holder. This mostly lustrous example has hints of gold and lilac toning.

\$8,625.00

Mint Errors and Die Trials Bring Record Prices in 2006 FUN Heritage Auction

1946-D 25C Washington Quarter--Struck on a Silver Dime Planchet--MS61 ANACS. Wrong planchet or wrong metal errors can take on a variety of forms. This example witnessed a dime planchet that was accidentally fed into the press striking Washington Quarters. Fully lustrous with medium to dark gold toning. There are many different ways to collect error coins, perhaps limited only by the number of different errors, or only by the collector's imagination. One idea would be to form a type set of coins struck on wrong planchets. A Lincoln Cent on a silver dime planchet in this sale would make a nice companion piece for this example.

\$4,025.00

1959-D 50C Franklin Half Dollar--Struck on a Cent Planchet--AU58 ANACS. Toned deep chocolate-brown, this partly lustrous example displays a full date and mintmark. LIBERTY and the denomination are off the flan. Franklin Half Dollars struck on wrong planchets are rarely seen and are highly desirable.

\$7,590.00

Mint Errors and Die Trials Bring Record Prices in 2006 FUN Heritage Auction

Undated 1C 1858-1 One Cent Splasher, Judd Appendix A, Pollock-3161, Unique, MS64 PCGS. A complete reverse die trial with a laurel wreath, arranged with the leaves in groups of five. This same design was also used on Judd-191, Judd-202, and Judd-208, according to USPatterns.com. Struck in white metal with paper backing. The surfaces are only slightly muted from their original brilliance, and the paper backing is almost complete. A piece of the rim is broken off from 2 to 3 o'clock. This is the only piece believed known of this die trial.

\$12,650.00

(Undated) 3CN 1857-3 Quarter Eagle Splasher, Judd Appendix A, Pollock-3140, High R.7, MS65 PCGS. An obverse die trial of Judd-189, with the design similar to the three cent nickel that was adopted eight years later. The design is complete except for the date. Struck in white metal with a paper back. Part of the paper backing can still be seen. The surfaces show only the slightest subduing of the original brightness. An identifying scratch is seen below the chin of Liberty. One of only four pieces known.

Mike Byers, Professional Numismatist since 1978

Byers Numismatic Corp. A California Corporation Since 1980

Mike Byers is a consultant to ANACS for Mint Errors

1880/9-S Morgan Dollar Struck 10% Off-Center PCGS MS 63

This is the only known Morgan Dollar struck off-center that is also an overdate. It is struck a full 10 % Off-Center and is in choice mint state condition.

1965 Kennedy Half Dollar

Unique Double Struck Mated Pair

This 40% Silver Kennedy Half Dollar mated pair is unique. The first piece is a double struck reverse with an indented obverse. The second piece is a broadstruck indent which fits very snug and locks into place when both are together. A dramatic and wild mint error pair.

Rare Franklin Half Dollar Struck 70% Off-Center

It is always exciting to see a Franklin Half Dollar struck off-center since there are only a few known. This piece is nicely positioned at 12:00, shows the 196 in the date and is in choice mint state condition.

Martha Washington Test Piece Struck on Nickel Size Planchet

There is one set of a Dime, Quarter and Half struck by Martha Washington dies that are permanently housed in the Smithsonian Institute, embedded in blocks of lucite. According to *United States Pattern and Related Issues*, by Andrew W. Pollock III, “the only trial pieces purported to have survived metallurgical testing in 1965 were the Dime, Quarter Dollar, and Half Dollar equivalent strikes in copper-nickel clad over copper.”

My discovery of the Martha Washington Test Piece on a copper-zinc Cent planchet struck 10% off-center with a uniface

reverse was a front page *Coin World* article on August 7th, 2000. In a response to the Martha Washington Test Piece that I discovered, the Mint announced that “the dies are available to the Mint’s metal and blank vendors for testing.”

This is a Martha Washington Nickel. It is only the second piece offered. It is listed on uspatterns.com and will be in the next edition of the Judd book. This piece was also certified by NGC as a nickel-sized test piece with a weight of 5.0 grams and graded MS 63.

CONECA

The Combined Organizations of Numismatic Error Collectors of America

CONECA is a national numismatic organization devoted to the education of error and variety coin collectors. CONECA focuses on many error and variety specialties, including doubled dies, Repunched mintmarks, multiple errors, clips, double strikes, off-metals and off-centers -- just to name a few. It publishes an educational magazine, The Errorscope, which is printed and mailed to members bimonthly. CONECA offers a lending library, examination, listing and attribution services; it holds annual meetings at major conventions (referred to as Errorama) around the country, and offers auction services to its members. Please visit conecaonline.org and enjoy!

CONECA Variety Attribution Services

CONECA offers two attribution services. One service enables members and non-members to send their coins directly to an authorized CONECA attributer. The other service is offered through the numismatic grading firm of ICG and enables CONECA members and non-members to have their coins attributed by a CONECA attributer and then graded and slabbed by ICG.

CONECA Error Examination Services

CONECA offers two examination services. One service enables members and non-members to send coins to an authorized CONECA examiner who will return an opinion of each coin's error classification. The other service is offered through the numismatic grading firm of ICG and enables CONECA members and non-members to have their coins examined by a CONECA examiner and then graded and slabbed by ICG.

Consign Your Coins to Mike Byers

Terms and Conditions

We are offering this service for error collectors and dealers alike. The reason why we are doing this is to promote the error business through the world wide web and to connect error collectors with the coins they have been searching for. In order to post your item on our web site: byersnc.com, you must agree to the following terms and conditions.

1. All major U.S. mint errors are accepted if they are certified by ANACS, PCGS, NGC or ICG.
2. The approximate value of each item must exceed \$3,000.
3. Byers Numismatic Corp charges a 10 % commission for each sale.
4. The minimum time for any listing is thirty days.
5. Seller agrees to a seven day return privilege from date of receipt.
6. Seller agrees to use an escrow service if requested by the buyer.
7. We reserve the right to deny or cancel any listing at any time.
8. All listing are subject to prior sale.

Please do not offer us the following:

1. More than two coins bonded together.
2. Caps more than ½ inch high.
3. U.S. Errors that were obviously and intentionally struck as error coins. No impossible mint errors.

We only accept consignments of U.S. Errors that were legitimately found or released thru normal distribution channels.

Scanning Specifications

1. Scan both the obverse and reverse of the entire holder.
2. Scan with a resolution of at least 300 dpi.
3. Save the picture in jpeg format (jpg).

Information Requirements

In addition to e-mailing a photo of your item, please include the following information:

1. Name, Address & Phone Number
2. E-Mail Address
3. Asking Price

After your item is listed, we will contact you by e-mail with any offers and questions. Once a price is agreed upon we will handle the entire sale for a 10% transaction fee, which includes all costs (eBay fees, grading fees, webmaster charges, postage and registration fees, insurance, paperwork, etc.).

If you have a Mint Error collection for sale or would like to sell your duplicates and do not want to consign your coin(s), we can purchase your entire collection outright. Please contact us at mike@mikebyers.com.

Mint Error News Price Guide

This price guide is brought to you by Mint Error News. It has been compiled by many of the top major mint error dealers.

This price guide is a guide. Prices fluctuate due to the date, grade, eye appeal and how dramatic the striking error is. Rarity is also a factor. The price is sometimes based on the rarity and grade of the type of coin as well as how rare the error is. The price can also vary depending on whether two collectors are bidding for the same rare major mint error. When purchasing a mint error, it is important to use multiple resources to determine value, as there are many mint errors that do not fit into one category.

Proof Errors

Proof coins are struck by technicians who hand feed the blanks into special presses. They are produced, examined, and packaged using extreme quality control. It is very unusual to find major proof errors. A few broadstrikes, off-centers, double strikes in collars and off-metals have been known to be found in sealed proof sets. Proof errors are aggressively sought after by many error collectors.

A very small group of Proof errors recently came from a collection that was auctioned by the State of California. The U.S. Secret Service inspected and released this collection to the State of California determining that it was legal to own. The State of California then auctioned the collection and it has been dispersed since the sale.

Denomination	Broadstrikes	Die Trials	Double/Triple Strikes	Off-Center Strikes	Partial Collar Errors
Proof Lincoln Cent	\$1,500 - \$2,500	N/A	\$4,000	\$1,500 - \$3,000	\$750

Mint Error News Price Guide

Broadstrikes

A broadstruck error occurs when a coin is struck without the collar to form the rim and edge that is part of the shape of the coin. Coins can be broadstruck on either type one or type two planchets. When a coin is broadstruck the blank being fed into the collar will spread and distort outward as it is being struck because the collar isn't in the correct position to retain it.

Mint Error News Price Guide

Partial Collars

Partial collar strikes occur when there is a malfunction of the striking press. This causes the collar to be in an incorrect position. The lower die (usually the reverse die) is recessed in the collar. This allows the coin which is going to be struck to have a formed rim. After a coin is struck the lower die raises upwards, pushing the struck coin out of the collar and ejecting it. If a blank entering the collar is not properly seated, it will only have partial reeding as it is struck. The edge of this coin will have a partial reeding and a partial blank surface area. Recently, the Mint has installed new machinery where either die can be installed in either position.

Uniface Strikes

Uniface coins occur when there have been two blank planchets in the press at the same time. The other blank will obstruct the die on either the obverse or reverse side, which will prevent it from having that design on the coin. There are many different variations involving uniface errors. In addition to having a 100% blank obverse or reverse, a coin can be struck off-center, with a blank planchet in the collar which will obstruct one side of the off-center. There are also mated pairs which have a combination of multiple errors which can include a side which is uniface. Finally, there are uniface strikes due to a die cap which adhered to the die, forming itself in the shape of a die and striking blank planchets.

Mint Error News Price Guide

Bonded Coins

Bonded coins occur when the feeder system, which supplies blank planchets to the coin press, malfunctions and jams. When this occurs, a struck coin is not properly ejected and another planchet is fed into the collar and is struck. This struck coin will land on top of the previously unejected strike. These coins will then crush and bond together. This may occur many times as more coins bond.

Coins Struck on Feeder Finger Tips

After a recent tour of the U.S. Mint at Philadelphia, it was discovered that the minting process had changed to some degree. One of the changes was that “feeder fingers” were used during the striking of all denominations of U.S. coins. Prior to this tour, U.S. coins that were struck on feeder finger tips were authenticated and described as being struck on aluminum scrap. Coins from all modern denominations have been discovered that were struck on the tips of these feeder fingers.

Mint Error News Price Guide

Struck Fragments

The blanking press takes the coils of metal strips and punches blanks out of it, ejecting the webbing at the other end. The webbing is cut into small scrap pieces to be melted and recycled. Occasionally a scrap piece will be mixed with the blank planchets and struck by the dies. Struck fragments are rare in the larger denominations. These can be uniface or die struck both sides and are very rare on type coins.

Denomination	Uniface	Die Struck Both Sides

Mint Error News Price Guide

Mated Pairs

Mated pairs involve two individual coins with different errors that were struck together at the same time. Mated pair error combinations can be found in most error types and come in many shapes and sizes. Mated pairs can be overlapped when one of the coins is struck off-center on top of another coin. Another type involves a brockage where a struck coin was perfectly centered on a blank and restruck. Some mated pairs involve a die cap where the cap and brockage coin are discovered together, but this is a scarce find.

The rarest mated pair type involves two die caps (obverse and reverse) where both dies were capped at the same time and both die caps are mated. This last type is extremely rare and there are only a few known examples of mated pairs involving an

obverse die cap and reverse die cap. There are several of these mated pairs known on Kennedy Halves including two dated 1976, which is the Bicentennial year. One of the most spectacular mated pairs involve two Barber Dimes, an obverse die cap mated to a reverse die cap and are unique.

Mated pairs can also involve an off-metal where a smaller blank planchet or smaller struck coin was struck on top of a larger coin. This type is extremely rare. The most spectacular pair known is a double struck Franklin Half which was mated to a Lincoln Cent. The Lincoln Cent blank was on top of the obverse of the struck Franklin Half. This pair was then struck together. It is unique.

Mint Error News Price Guide

Transitional Errors

A transitional error occurs when a coin is struck on a planchet from a previous year with different metal composition. The most famous transitional is a 1943 copper cent struck on a 1942 copper blank. 1943 cents were struck in steel because of the copper shortage during World War II. Other famous transitionals include 1965 coinage struck in silver instead of clad.

There are also transitionals struck on blanks for the next year. An example is 1964 coinage in clad instead of silver. Most recently, transitionals were discovered involving the SBA and Sacagawea Dollars of 1999 and 2000. There are eight known 1999 SBA Dollars struck on the brass planchet for the 2000 Sacagawea Dollar, and four known 2000 Sacagawea Dollars struck on a clad planchet for the 1999 SBA Dollar.

Denomination	Off-Metal Planchet	Circulated	AU	Unc	Choice Unc – Gem

Mint Error News Price Guide

U.S. Gold Errors

Major mint errors on U.S. Gold coins are the most prized category of all mint errors. Gold errors are very rare and a few have traded in the \$75,000 to \$100,000 range. Even a broadstruck U.S. Gold coin can easily sell for \$15,000 to \$30,000 compared to a broadstruck Cent, Nickel, Dime or Quarter which all sell for well under \$10. Many serious collectors of Gold Errors have to wait patiently for months and sometimes even years to acquire that one special piece for their collection.

The prices listed here are for common dates in AU-Unc. Better dates and errors that are in gem condition are worth considerably more.

Denomination	Partial Collar	Broadstruck	Clipped Planchet	3% - 5% Off-Center	10% - 15% Off-Center

Mint Error News Price Guide

Indents

An indent error occurs when two blanks are fed inadvertently into the same collar, with one blank partly overlaying on top of the other. When the hammer die strikes this combination, the upper blank will be forced into the lower blank, creating a depression which is shaped similar to the upper blank. A scarce type of indent occurs when a blank intended for one denomination lands on top of a blank from a different denomination.

Capped Dies

A capped die is caused when a struck coin sticks to the upper hammer die. Once the coin is struck to the die face, the reverse of the struck coin becomes the new die face. When the next blank is fed into the collar and the strike occurs, the reverse design of the adhered struck coin impresses itself into the new blank. This struck coin is a brockage strike. The coin that adhered to the upper die is known as a die cap. This process repeats itself as more coins are struck by the cap. The greater the number of strikes, the higher the cap metal will be pushed around the upper die shaft. Eventually, the cap brakes away from the die in the shape of a thimble.

Die Adjustment Strikes

Die adjustment strikes are also known as die trials. This error occurs when a coin is struck from the press with very little pressure. When the press is being set up and adjusted, extremely weak strikes occur as the strike pressure reaches its optimum level. These die trials are destroyed after being struck and are rarely found in circulation.

Double Denominations

One of the most expensive, popular, and desired types of errors are the double denominations. This error happens when a coin is struck on a previously struck coin of a smaller denomination. Examples are a cent on a struck dime, and a nickel on a struck cent. The most dramatic are those with considerable design visible from the original strike. There are a few known double denominations with different dates.

Brockages

A brockage error can only occur when there are two coins involved. One of the coins involved will always be a struck coin which has not ejected properly. That struck coin will find its way back between the dies and will be struck next to a blank planchet which was fed into the collar. The image of that first struck coin will be impressed into that side of the blank planchet. The result will be a second coin which has images of the first coin impressed into it. Those images will be pressed into the coin and the image will be in reverse. This incuse sunken image is known as a brockage.

Double & Multiple Strikes

When a blank planchet is struck by the dies, the normal procedure is for the feeders to eject the struck coin out of the collar and into a chute. If there is a malfunction and the struck coin isn't ejected, it may receive a second or third strike by the dies. A multiple struck coin can happen in many ways and have many combinations of errors.

Off-Center Strikes

Off-center coins are one of the most common and best known types of errors. This happens when a blank which is supposed to be fed into the press, lands in the collar improperly. When this occurs only part of the blank is between the upper and lower dies. When the dies strike the blank, only that part will be struck with a design.

Off-Metals

Off-metal and wrong planchet errors occur when a correctly made blank from one denomination is accidentally fed into a press for another denomination. Examples are a nickel struck on a cent planchet and a cent struck on a dime planchet. The coin struck on an incorrect blank will weigh exactly what the denomination of that blank would have been. An even more dramatic wrong planchet error is a coin struck on a previously struck coin of a different metal.

Big Expectations for 2006

2006 is upon us, expect BIG things from Errors

by Rich Schemmer (richerrors.com)

We're planning on another amazing year for error coins. We expect prices to move up dramatically in every category. Some of the biggest moves will be in Off Metals, Type coins errors, 2003-2004-2005 dated errors, and other unusual errors such as Die caps, Fold-Overs, Unplated Cents, Multi Strikes, missing Clad layer quarters, SILVER error coins, Indian 1c & Buffalo nickels. Did I miss many? If I did, expect great gains on those too.

Many are purchasing whatever hoards are available and stocking them for resale. One recent error coin purchase by a coin dealer almost reached 1 Million dollars. NOW these are not the regular error coin dealer names that you may be familiar with, but rather major numismatic corporations that have never dealt in errors before. With all this going on and so little available in the market, dealers will pay top dollars for "Better" material (notice I stated BETTER material) that will catch the collecting eye of their customers.

So what should you buy? I would suggest, the very BEST you can afford. Don't mortgage your home, but if you have some extra money, buy the highest grade, most eye appealing error coin(s) you can afford. One more suggestion, make sure it's certified by NGC, PCGS or ANACS. If not for you, then for the coin dealer who may eventually want to purchase it and

may not know that much about errors. He will feel much more comfortable offering you top dollar for something certified.

The January FUN show (Jan. 4th-8th) in Orlando Florida will also be a barometer as to what to expect in 2006. Look for any reports by error coin dealers about this show. The FUN show is the 1st major convention of the year and almost every major error coin dealer attends. Most major auction houses have numerous errors listed in their auctions and many collectors & dealers alike use the activity of the convention as the year's error coin barometer.

Want to learn so more about errors before buying? Why not take one of 2 error courses offered by the ANA at their summer's seminar. For more information go to: money.org

The Bolt Collection

Editor's Note: This is the original price list from Fred Weinberg of Numismatics Ltd. which handled the famous Bolt Collection of major mint errors and die trials. It is incredible to see how inexpensive these mint errors were priced at over 30 years ago.

Numismatics Ltd.
MINT ERRORS
DIE TRIALS FROM THE JAMES FRASER ESTATE
AND EXTREMELY RARE TRANSITIONALS

In this offering we present over \$100,000.00 in rare off-metal and numismatic error coins. The Fraser Die-Trials are an exciting part of the history of not only the Buffalo Nickel (which James Fraser designed) but of the rich history and lore of numismatics.

Also presented for the first time are some of the rarest and most fantastic off metal mint errors known. Many pieces have not been seen by even the most prominent dealers and collectors of mint errors, and it is our honor to offer them to you now, when the error hobby is enjoying unprecedented popularity and growth.

At the end of this listing are many new items in stock, such as a 1974D Silver Ike Dollar, a fantastic double struck Morgan Dollar, plus a selection of scarce Ike Dollar major errors.

All items are 100% guaranteed U.S. Mint errors. All orders sent Air Mail registered. No postage required. You may call our toll free (800) number for orders over \$100. All items are one-of-a-kind, and alternate choice would be appreciated.

We have an extensive selection of all type coin errors, silver cents, off centers, world errors, gold errors, many other types. Please let us know what you collect or are looking for. We will help you build your collection with the finest pieces available.

FRASER DIE TRIALS

The die trials from the James Fraser Estate are offered publicly for the first time. (Fraser was the designer of the Buffalo or Indian nickel). All the pieces are listed in Scott's Comprehensive Catalogue of U.S. Coins, and are plated on page 345. All pieces are Uniface (struck on one side only.)

1911 Lincoln nickel obverse. →
Lincoln head facing left, date on right side. "Liberty" on left side. 89.80 grs. White metal R-8

1912 Indian nickel obverse. Same as Buffalo nickel regular issue, but date is smaller, also Liberty smaller. 47.00 grs. White metal R-7. →

The Bolt Collection

(1912) Buffalo nickel reverse. Elison type, similar to adopted issue, but smaller letter. 63.80 grs. White metal R-8. →

The above set of 3 historically significant Fraser pieces. A show stopping exhibit that 99.99% of all collectors or dealers have never seen before. They are listed in Scott's. (The 1911 Lincoln nickel is my favorite.) The price for the three as a set.....\$20,000.00

1912 Indian nickel obverse. Same as No.2 above, but a very bright finish to the piece. 61.60 grs. White metal. Very nice.
.....\$10,000.00

1912 Indian nickel obverse. Same as No.5 above, but darker and with a small bite on the date area. The date is still clear and sharp. 55.95 grs. White metal.....\$6,000.00

For a quarter of a million dollars or more you can own a 1913 Liberty nickel—but this selection of 1912 Buffalo nickels is even more unusual and a lot less expensive.

1915 quarter size obverse. Made by James Fraser for the proposed Peace Centennial/Panama Canal Commemorative issue. Man wielding sickle in a field, date on left, "In God We Trust" across the top. 62.80 grs. White Metal. R-8.

1915 quarter size reverse. Intended for same issue above. Tree in the forefront, Pacific Ocean behind, with a sunburst. 64.05 grs. White metal R-8.

1912 Liberty nickel obverse design similar to regular issue, but more crude. Quarter size head larger, coronet plain, no "Liberty" 84.60 grs. White metal R-8.

The set of three Die Trials as described above. Another unusual offering and the first time available. For the serious collector.....\$5,000.00

We will have for sale a 1944P Steel cent as soon as it is returned from the ANACS in Washington, D.C. If you are interested, please advise.

EARLY TYPE COIN OFF-METALS

1864 Two Cent Piece. XF struck over a struck Indian Cent. Flipped over. A unique piece and one of the most important (and earliest) double denomination pieces known. Scott's lists three Two Cent pieces on cent planchets but has no listing for this piece at all..\$2,000.00

1865 Two Cent Piece. CH BU struck on an Indian Cent planchet. The finest known piece we have ever seen or heard of. Well centered, full date and original luster. Very nice strike. Doubtful that another BU exists.....\$2,500.00

1871 Two Cent Piece. AU struck on a nickel planchet. This date is unique. Scott lists only two such off metal pieces. One 1870 the other 1872. Both are R-8 assigned because of their great rarity. Another well centered piece, full date. Small edge bump at 5:00. First time offered at.....\$2,100.00

M.D. "S" Mint Buffalo nickel Unc. struck on a dime planchet. Intended for a Mercury Dime. Two pieces known. We are surprised that there are no more Buffalo on dime planchets, but we do know the figure of two known must be correct at this time. We have never even heard of another piece besides these two, and the other piece (which is dated) will be in a permanent collection. An important piece for the collector of off metals\$800.00

The Bolt Collection

Set of Six off metal dimes.

They are as follows:

1903 Barber Unc. Struck on a Venezuela 1/4 Bolivar planchet 19.29 grs.

1936 Mercury BU struck on a Venezuela 1/4 Bolivar planchet 19.29 grs.

1941 Mercury AU struck on a Netherland East Indies 1/10th Guilder

1946 Roosevelt AU struck on a Venezuela 1/4 Boliva planchet. 19.29 grs. (copper) DOUBLE DENOMINATION

1970 Roosevelt Unc. struck on a Philippine 1 centimo planchet. Aluminum 7.48 grs.

The set of SIX as above (a one of a kind set).....\$2,400.00

LINCOLN CENTS

1919P Lincoln cent XF struck on an Argentina 10 centavos plan. 75% copper 25% nickel....\$120.00

1920P Lincoln cent VF. Same as above, scarce.....\$100.00

195--P Lincoln cent BU struck on a 1955 Venezuela 25 centimos planchet. 19 grs. (.896 silver .165 copper). Very scarce\$250.00

1956P Lincoln cent Unc. struck on Honduras One Centavo planchet. 231.1 grs. smaller than a dime.....\$135.00

1958P Lincoln cent AU struck on a Cuba 1 centavo blank. 38.5 grs.....\$120.00

1959P Lincoln cent AU struck on a Korea 10 Kwan planchet. 38 grs Diameter 19.1m.m. .95 copper .5 zinc (looks like a silver cent). The first we've seen of this type.....\$135.00

19(59) Lincoln cent CH BU struck on a Costa Rica 10 centimos planchet 18 grs. Composition: Chrome Stainless Steel. Unique and a beautiful specimen. Once again, we ask, "Who owns a U.S. coin struck in Stainless Steel?" You can.....\$350.00

Rare Set of Lincoln Cent Transitionals:

1964 Lincoln cent BU struck on a CLAD DIME PLANCHET. Well centered.

1965 Lincoln cent BU struck on a SILVER DIME PLANCHET. Well centered.

N.D. Lincoln cent BU struck on a fragment of a clad dime. Back half of head and "RTY" visible on the obverse and the lower left corner of the memorial and "OM" on the reverse. 3.4 grs. Fragments are very scarce and on off metal planchets they must be considered rare. This nice piece.....\$150.00

The Bolt Collection

1965 Lincoln cent BU struck on a clad dime planchet. 60% brockage obverse from 8:00 to 1:00. Full date. Nice, and something "special".....\$125.00

The U.S. Mint in Phila. was striking 1964 & 1965 coins both in 1965. These are two of the rarer transitional pieces because they involve a denomination that was not changed in metal composition, but by error were struck on planchets that were changed that year. These have been displayed by us at a coin show back East and the response and interest by collectors was amazing. Two items that are perfect for a Best-of-Show Display or investment in the years to come. We are talking pure rarity and history with these 2 coins. It is possible that another set like this will never be offered again.....\$3,500.00

WASHER COINS

Washer Coins are extremely rare and very unusual mint errors. At the U.S. Mints if a washer is dropped into a press or even one of the hoppers, it will be struck by the dies. At this time there are only four Washer coins known, three of them are listed below for your selection. They are eye-appealing "coins" to say the least. These three pieces are pictured on page 135 of Modern Mint Mistakes by Steiner & Zimpfer, 4th Edition. Anyone can have a cent on a dime planchet, or even an Ike on a Quarter Planchet, but how many can ever hope to own a U.S. coin struck on a Washer?

1967 Jefferson nickel CH BU struck on a Washer and magnetic.....\$1,750.00

1968S Lincoln cent Unc. struck on a Washer and magnetic\$1,500.00

1969D Washington quarter Unc. Struck on a Washer. 54.7 grs.\$1,350.00

The Bolt Collection

1967 Lincoln cent CH BU struck on a clad dime planchet...\$75.00

1968D Lincoln cent CH BU struck on a clad dime planchet...\$70.00

NICKELS

1898 Liberty nickel VF struck on a Nicaragua 5 centavos planchet. .75 copper .25 nickel. The second piece we have had in stock.....\$200.00

1940S Jefferson nickel CH BU struck on a dime planchet with the well known "flagpole" die crack on the reverse. ...\$115.00

1941 Jefferson nickel AU struck on a dime planchet. Scarce date.....\$100.00

1953D Jefferson nickel Unc. struck on a cent plan.....\$85.00

1955D Jefferson nickel BU struck on a cent planchet. Scarce date.....\$100.00

1974D Jefferson nickel BU struck on a cent planchet.....\$65.00

N.D. Jefferson nickel Unc struck on a cent planchet.....\$50.00

1965 Roosevelt dime Unc struck on a silver dime planchet. Full strike on a silver planchet. Extremely rare. There are 2 pieces known that were cut in half at the mint and apparently only two "normal" pieces like this. The last piece was advertised about a year ago and was sold shortly after. We believe this specimen is much nicer and may be the finest known. Authentic, as all pieces on this list. With the high interest in transitional pieces, this will be a prime rarity in the years to come.

.....\$4,750.00

WASHINGTON QUARTER

1954S Washington quarter CH BU struck on a nickel planchet. Scarce early date & MM. Very nice condition & strike..\$125.00

1955 Washington quarter BU struck on a silver dime planchet. Scarce.....\$100.00

1957 Washington quarter BU struck on a dime planchet.\$90.00

1964P Washington BU struck on a nickel planchet, nice.....\$60.00

1964D Washington quarter BU. Same as above.....\$55.00

1965 Washington quarter BU struck on a silver dime planchet. 38.5 grs. Nice strike, full date. Another transitional piece of interest.....\$1,900.00 ↓

1965 Washington quarter Unc struck on a silver quarter planchet from 1964. Same comments as 1965 Roosevelt dime Unc (above). In fact, these two pieces should be together. These may never be \$100,000 coins but we seriously believe their value will increase in the coming years as their importance and popularity are exposed to the general hobby.....\$3,750.00

1967 Washington quarter Unc. struck on a nickel planchet\$45.00

The Bolt Collection

1967 Washington quarter Unc.
struck on a dime planchet.\$55.00
1971D Washington quarter BU
struck on a dime planchet.\$55.00
1972D Washington quarter BU
struck on a nickel planchet30.00
1973D Washington quarter BU
struck on a nickel plan...\$30.00
N.D. Washington quarter BU
struck on a cent plan.....\$65.00
N.D. Washington quarter BU
struck on a dime plan.....\$35.00

WALKING LIBERTY HALVES

(1943) Walking Liberty half AU
struck on a Steel Cent planchet.
20% off-center at 8:00. Unique,
and one of the most dramatic
off metal errors we have ever
seen. Words can't describe this,
but try to picture it: a Walk-
ing Liberty Half dollar on a
Steel Cent planchet from 1943.
This will be one of the first
items to sell from this list.
Nice color, no corrosion
.....\$2,800.00

N.D. Walking Liberty Half CH BU
struck on a nickel planchet. An-
other rare piece for this series
R-8 in Scotts. Rarer than the
quarter planchet above. Never
have three Walking Liberty off
metals been offered at the same
time and probably they never
will be offered again. This
choice specimen, fully struck
and lustrous.....\$1,500.00

1954 Franklin Half. BU struck
on a cent planchet with full
brockage reverse. Very unusual
and a beautiful coin. The full
brockage reverse has part of
the date and Franklin's head
incused and distorted. Has to
be seen.....\$750.00

1956P Franklin half BU struck
on a quarter planchet....\$130.00

1957P Franklin half BU struck
on a nickel planchet. Scarce
for both the date and the off
metal error. A very nice
coin.....\$225.00

1942 Walking Liberty half CH BU
struck on a quarter planchet.
Listed as R-8 in Scotts. The
first piece offered in at least
15 years. These are never seen
and the fact that we have three
off metal Walking Liberty Halves
in stock is not a comment that
they are common by any means.
If you want a type coin for
your set, this is it...\$1,800.00

1960D Franklin half BU Flip-
over double strike on a struck
nickel. Unique. Talk about a
double denomination! This was a
regular Jefferson nickel that
somehow was again struck by
Franklin Half Dollar dies, and
the coin was a "flip-over" when
it was struck the second time.
Jefferson's outline is visible
on the reverse of the Half Dol-
lar strike, which is dominate.
A real opportunity for a real
nice 55¢ piece.....\$950.00

The Bolt Collection

N.D. Franklin half BU struck on a cent planchet. 30% off-center 8:00. Rare.....\$650.00

N.D. Franklin half Unc struck on a cent planchet. Nice coloring & centering.....\$400.00

N.D. Franklin half BU struck on a dime planchet. Extremely rare even more so than dated Kennedy halves on dimes. Less than 5-6 known, listed as R-8 in Scott's. A beautiful specimen and perfect for a type set.....\$550.00

1961 Franklin Half BU struck on a nickel planchet. Scarce and nice.....\$200.00

1961D Franklin half XF struck on a cent planchet.....\$425.00

1962D Franklin half BU struck on a quarter planchet....\$125.00

N.D. Franklin half Unc struck on a cent planchet. Full uni-face obverse. Another rare double error coin.....\$500.00

1963 Franklin half Unc struck on a cent planchet with full brockage reverse. Very similar to the 1954 listed above. Very rare.....\$675.00

The Bolt Collection

KENNEDY HALVES

1964 Kennedy half Unc struck on a nickel planchet. Scarce for this date.....\$400.00

1964 Kennedy half BU struck on a silver quarter planchet. A one-year type.....\$130.00

1964D Kennedy half BU struck on a silver quarter planchet nice.....\$130.00

1964P Kennedy half BU struck on a struck clad quarter. A transitional off metal double denomination. A fantastic coin. The head of Washington shows in Kennedy's hair. This is rare enough as a double denomination, but add the fact that it is also a 1964 dated coin struck in clad material and you have a unique coin that will never be duplicated again.....\$2,300.00

1965 Kennedy half BU struck on a silver quarter planchet. A choice specimen and the last transitional piece in this offering. We have said enough about these rare type coins and we ask that you check this list out in 5 or 10 years and compare prices. We think you will be surprised.....\$2,100.00

1968D Kennedy half BU struck on a quarter planchet. Strong strike.....\$90.00

N.D. Kennedy half BU struck on a nickel planchet.....\$250.00

N.D. Kennedy half BU struck on a cent planchet. Scarce.\$275.00

N.D. Kennedy half BU struck on a dime planchet. Strong clash die marks on obverse and reverse. Scarce.....\$310.00

Same on clad dime; no clash marks.....\$240.00

1968D Kennedy half BU struck on a Brazil 10 centavos planchet. 84.5 grs. 75% copper, 25% nickel. Two known of this type.....\$275.00

(196)8D Kennedy half BU struck on a Panama 5 centisimos planchet. 77.3 grs. 75% copper, 25% nickel. Only one known of this type.....\$275.00

M.D. "D" Mint Ike Dollar BU struck on a clad half dollar planchet. All dollar errors are scarce and this nice off metal is no exception....\$950.00

1974D Ike Dollar CH BU struck on a 40% silver proof planchet. Confirmed by the U.S. Mint. It appears that a shipment of clad blank dollars being transported to Denver from San Francisco had a few of the 40% silver planchets for proof Ikes. It is not known how many silver blanks were struck and released, but there are less than eight (8) pieces reported. We have sold two pieces already in the last month. This is our third. We have the coin in stock and it is not another dealers coin that is advertised. The prices that have been asked for the other pieces range from \$3,500 to \$5,500. We have heard a report that this coin will be listed in the Red Book of 1977 (the 1976 issue will be out in late June). Still relatively unknown to the general collecting public, it has not had time to "sink" in yet even with the dealers. If you have one for sale, please contact us....SOLD

The Bolt Collection

FOREIGN OFF METALS

1921 Canada One cent XF struck on a silver Canadian dime planchet. UNIQUE. The only off metal cent in this series, and the key date too. We expect to sell this great rarity to a Canadian customer.....\$1,500.00

1964 Canadian cent Gem BU struck on a foreign steel planchet. Unidentified, and so far the only one known.....\$200.00

1964 Canadian cent Unc struck on a silver dime planchet. Much scarcer than the U.S. silver cents.....\$160.00

1969 Canadian cent BU struck over a struck dime plan..\$150.00

1969 Canadian cent BU flip-over strike on a struck dime planchet. A rare double denomination off metal with two dates, one for the cent, one for the dime. A beautiful strike with equal design on both sides.
.....\$175.00

1960 Canadian nickel. AU struck on a silver dime planchet. Very scarce. The first seen...\$250.00

(1944-45) Philippine 20 Centavos. Struck on a silver 10 Centavos planchet. "D" Mint, (made in Denver, U.S.A.). Unusual, scarce and inexpensive
.....\$100.00

1962 Philippine 5 Centavos Unc. struck on a copper 1 Centavo planchet.....\$100.00

This concludes the off-metal section of our list.

IKE DOLLARS

1972P Ike Dollar BU. Large double clipped planchet. 10% each at 8:00 & 10:00. Nice, and one of the larger double clips we have seen.....\$60.00

1972P Ike BU. Split cladding on rim. 4:00 reverse. A small area is split and open, about 3/4 of an inch. Scarce, even this small.....\$35.00

1972P Ike BU. Full partial collar strike on a Type 1 blank planchet. A choice BU coin with two small edge bumps from ejection. Rare this nice...\$140.00

1972D Ike CH AU split cladding reverse. Separated and folding off the planchet. Dramatic and very nice. Must be seen..\$110.00

1972D Ike BU broadstruck out of the collar. Appears to be 3% off-center.....\$175.00

1972D Ike BU 5% off-center 4:00 Scarce.....\$225.00

N.D. Ike BU 95% off-center 1:00 Full uniface reverse. Rare, unusual and the farthest off-center Ike known. Beauty....\$400.00

N.D. Ike Unc blank planchet.
Type 2 upset rim . AU.....\$45.00
Unc....\$65.00

IKE DOLLAR CLIPPED PLANCHETS

Single clip 4-5%...\$15 per
Single clip 6-8%...\$25 per (nice clips)

Single clip 10%...\$35 only one
Single clip 5%...straight \$25 only one (scarce)

Double clips both 3-5% each
.....\$25 per

Triple clips, rim, 5%, rim
...\$45 only one

Triple clips, 10%, 5%, 3%
...\$65 only one (super)

NEW MINT ERRORS IN STOCK (MODERN & TYPE COINS)

1960D Lincoln cent BU. Very largely broadstruck out of the collar. About the same size as the 1950 B.S. piece from the Bolt Collection..\$20.00

N.D. Lincoln cent BU struck fragment. 3.8 grs. die struck on both sides. Rare and very nice.....\$75.00

N.D. Lincoln cent BU counterbrockage strike. Large raised impression of Lincoln. Very scarce & beautiful.....\$40.00

1865 Two Cent Piece VG double struck 2:00. Second strike 85% off-center. A small hole on the off-center portion has been expertly repaired. Extremely rare for this series and priced because of condition and repaired work. (Not as bad as it sounds.)
.....\$250.00

The Bolt Collection

M.D. Liberty Nickel BU 95% off-center 6:00. Really unusual and without a doubt the farthest off-center Liberty Nickel known. Buffalos this far off bring \$200-\$250. This rarity is only.....\$275.00

1999S Jefferson Nickel BU struck on a dime planchet. Scarce date. First we have heard of.....\$150.00

1854 Seated Half Dime. Nice VF 5% clipped planchet. Scarce \$20.00

188- Seated Dime AU 25% off-center 5:00. This is the Bolt Specimen which was sold when many of you requested it. That was a mistake and it is now offered again. First come, first served. Nice.....\$225.00

1966 Roosevelt Dime BU. Two straight end clips at 1:00 and 11:00. Rare.....\$25.00

M.D. Washington Quarter BU Struck fragment. Small. Only .7 grs.....\$45.00

1964D Washington quarter BU double denomination. Struck over a struck nickel planchet. Not a lot of design showing (Jefferson) but easily seen.....\$225.00

1817 Capped Bust Half. Full brockage reverse. Date and head sharp. Very rare, the first we have seen or heard of. Pictured in Collectors Clearinghouse about 10 years ago. First time offered.....\$375.00

1835 Capped Bust Half XF. Cracked planchet 2:00. Nice. The crack is easily seen and the coin would be graded CH AU or Unc by other dealers.....\$35.00

1834 Capped Bust Half CH AU. Original coloring. Slightly broadstruck out of the collar. Reverse appears to be about 4% off-center. Unusual and scarce.....\$150.00

M.D. Blank planchet half dollar. Type 2 (upset rim) 90% silver type.....\$35.00

1878S Trade Dollar VF. Partial collar strike. The first Trade Dollar error we have handled and the only one known besides an off-center reported many years ago. Rarer in mint error form than the twenty cent piece.....\$1,150.00

1900/CC Morgan Dollar BU. The popular double mintmark...\$35.00

The Bolt Collection

M.D. Morgan Dollar Unc. Fantastic double struck piece with the second strike off-center 25% at 6:00. The most unreal double struck large denomination coin ever made. One of a kind and just beautiful. You have to see this one to believe it.....\$2,500.00

1856 \$1 Gold Type 3 AU clipped planchet 8:00. Rare on gold coins.....\$200.00

1969-1970 Costa Rica 5 centimos planchet. Type 1 (no rim) 16 grs. Struck in the U.S. Mint and found in a bag of dimes 20.00

M.D. Large cent VF 50% off-center 6:00. Light scratch. Rare.....\$90.00

NUMISMATIC NEWS & RESOURCES

The CoinLink Numismatic Directory launched our 10th anniversary edition of CoinLink on January 1, 2005.

If you have a web site and want to get listed - [Add your Site Here!](#)

New site features include an Articles Database, interactive Polls, a "What's New" section highlighting everything new in the marketplace, and an expanded news section.

We are committed to providing the latest information with unequaled access to numismatic resources to make your coin collecting more enjoyable. Thanks for being a part of CoinLink.

uspatterns.com

The Society of U.S. Pattern Collectors is dedicated to the study of many of the rarest coins struck at the U.S. Mint: patterns, die trials and experimental pieces.

A Study of World Mis-Struck Coins

by Bill Snyder - worlderrors.com

Editor's Note: This is the second in a series of charts to be published in Mint Error News Magazine which were compiled by Bill Snyder of worlderrors.com. He undertook a study to painstakingly research and compile a list of known errors from major world countries. The chart below covers Canadian striking errors from 1740 to 1997.

Bill states that "this study will determine which types of mis-strikes were common or rare, by country and time period. The study was limited to major striking errors such as double strikes, off-centers, brockages, etc."

TYPE OF ERROR	DATE	AMT	DENOM	SPECIFICS
Brockage-O	1740	1/2	Marque	billon. Louis XV.
Brockage-O	1832 ca	1/2	Penny	Nova Scotia. "Needle-sharp incuse impression".
Brockage-O	1856	1	Cent(s)	Nova Scotia.
Brockage-O	1856	1/2	Cent(s)	Nova Scotia. (1 of 3 of these in this auction).
Brockage-O	1856	1/2	Cent(s)	Nova Scotia. Late state. (1 of 3 of these in this auction).
Brockage-O	1856	1/2	Cent(s)	Nova Scotia. (1 of 3 of these in this auction).
Off Center	1858	1	Cent(s)	Lot 1535, pictured. (Again offered in 1992 CICF auction).
Brockage-R	1858	1	Cent(s)	"Full rev brockage VF-20; test cut on rim."
Brockage-R	1858	1	Cent(s)	"Full rev brockage VF-20." (another in this sale).
Brockage-R	1858	1	Cent(s)	
Off Center	1858	10	Cent(s)	"o/c @ K-4. "Rare."
Brockage-R	1858	20	Cent(s)	Lot 386. "EF cleaned."
Broad Strike	1858	5	Cent(s)	"Fine, or so."
Off Center	1858	5	Cent(s)	65% o/c K-5. "Spectacular o/c with reeded edge."
Brockage-O	1858-1859	1	Cent(s)	Cracked planchet - K10 through nose.
Brockage-O	1858-1859	1	Cent(s)	
Brockage-O	1858-1859	1	Cent(s)	
Brockage-O	1858-1859	1	Cent(s)	
Brockage-R	1859	1	Cent(s)	"Prov of Canada, normal date, strong incuse." lot 1130
Off Center	1859	1	Cent(s)	
Off Center	1859	1	Cent(s)	"o/c to K-4, cleaned."
Off Center	1859	1	Cent(s)	"15% o/c K-7 + plan. crack K9 - center, sm hole K6:30."
Off Center	1859	1	Cent(s)	15% o/c K-8; rev rotated 45 degrees CW.
Brockage-R	1859	1	Cent(s)	"1859 N9, large dot in C of CENTS, in Capital holder.
Off Center	1859	1	Cent(s)	"22% o/c K-1:30."
Brockage-R	1859	1	Cent(s)	
Off Center	(1861)	1	Cent(s)	New Brunswick. 16% o/c K-10
Off Center	1861	1	Cent(s)	New Brunswick. 20% o/c. (1 of 3 coins in lot).
Off Center	1861	1	Cent(s)	New Brunswick. 20% o/c K-11

TYPE OF ERROR	DATE	AMT	DENOM	SPECIFICS
Off Center	1861 ca	1	Cent(s)	New Brunswick. "16% o/c K-2, well worn at date".
Brockage-O	1861 or 64	1	Penny	New Brunswick. "Semi-glossy AU."
Off Center	1864	1	Cent(s)	New Brunswick. 7% o/c. (1 of 3 coins in lot).
Off Center	1864	1	Cent(s)	New Brunswick. 7% o/c K-3:30
Off Center	1872	25	Cent(s)	40% o/c K-12.
Multiple Strike	1872	25	Cent(s)	"Struck 5 times". 2nd strike is 10% o/c K-1. Nice error.
Double Strike	1872	50	Cent(s)	50% o/c K-11.
Double Strike	1872	50	Cent(s)	2nd strike 15% o/c K-1:30. (Valued in 1967 at \$1200).
Off Center	1872-H	25	Cent(s)	Lot 387.
Double Strike	1875	10	Cent(s)	2nd strike 23% o/c K-12.
Brockage-O	1880 ca	1	Cent(s)	"on split planchet. Coin is blank on 1 side, striation marks
Brockage-R	1881H	1	Cent(s)	"slightly bent, punch marks"
Brockage-R	1881-H	1	Cent(s)	"slightly bent, punch marks."
Double Strike	1885	25	Cent(s)	1st strk 10% o/c K-5 (rev). 2 full dates show.
Brockage-R	1899	5	Cent(s)	
Quadruple Strk	1901	5	Cent(s)	Strks over, under, & rt of centered one, ca one digit's height apart.
Off Center	1902	10	Cent(s)	10% o/c K-3, rev. (Looks VF).
Clamshell	1902	5	Cent(s)	
Clamshell	1908	5	Cent(s)	"Clamshell date side K-7 to K-9 1/2 hinged."
Struck Through	1919	5	Cent(s)	Rev struck thru scrap metal 3/16" long @K-7.
Wrong Planchet	1921	1	Cent(s)	On a 10 Cent planchet.
Double Strike	1926	5	Cent(s)	"Flip-over double strike in collar."

3 Decade Old Catalog Found

From 1974 - 1978 I mailed out over 25 price lists of major mint errors. My all time favorite was my first catalog which was photographed, printed and distributed in 1975 by John Devine (Lonesome John) from Newbury Park, CA. It was a 26 page catalog containing the finest major mint errors with photographs, descriptions and prices.

One example is a 1900 Indian Head Cent struck in gold that I purchased from the Beck Collection in 1974 for \$7,750. Today, this mint error would easily bring \$75,000!

1975 Mint Error Catalog

CATALOG OF RARE MINT ERRORS

AUTUMN-WINTER 1975-1976

This is the first catalog that we've ever sent to our customers. Choice and desirable numismatic errors continue to grow in both price & popularity. Rarity and a growing awareness, of the ravages of inflation, have all combined making quality errors a sound investment as well as an increasing popular area of coin collecting. I hope that you will find something of interest in this catalog. We are constantly in the need of purchasing choice and rare major errors. You'll be surprised at the extremely strong prices that we are willing to pay. Feel free to ship choice errors for our firm cash offer. Thank you.

TERMS OF SALE:

1. Please enclose a check or money order with your order. An air mail check will be sent for any order or partial order that cannot be filled. Coins can be sent on approval.
2. All orders sent air-mail registered.
3. California residents please add 6% sales tax on all orders.
4. All errors are unconditionally guaranteed & your satisfaction is assured.
5. Full 7 day return privilege for refund.
6. Feel free to call in order to confirm your order. The number is (714) 622-5714
7. Call collect on orders over \$200.00
8. Please send us your want lists. We attend most of the major conventions throughout the country and we might be able to assist you.

2.

UNC TRANSITIONAL QUARTER 1967

Struck on a silver quarter planchet from 1964. Recently a 1965 silver quarter was advertised at slightly under four thousand dollars. **RARE**
\$3,250

BU LIBERTY HEAD NICKEL ND

50% Incuse brockage obverse at K-6 from struck coin. Gen strike w/ partial collar on reverse
\$75

3.

BU SILVER FOLD OVER ND

Struck on edge and folded over. It is struck slightly off center. This enables you to see the fold at any angle. This Roosevelt silver dime is one of three known that are folded.

\$350

BU WRONG PLANCHET 1974

A Kennedy half struck on a clad quarter blank planchet. A gen strike w/ a full date. **CHOICE**
\$75

4.

UNC TRIPLE STRUCK OFF METAL (1971)

There are only two triple struck Ike dollars in existence. This one also happens to be struck on a copper cent blank planchet. The only IKE triple struck on any other planchet. **UNIQUE**

\$1,950

BU TRANSITIONAL 1964

Kennedy Half struck on a clad quarter planchet intended for striking coins in 1965. Not only is this a transitional since it is struck clad instead of silver, but also an off-metal. This is a very under rated transitional off-metal. Much rarer than the 1965 50¢ on a clad 25¢. I should think that this error will be popular.
\$850

5.

1975 Mint Error Catalog

 <p>BU <u>DOUBLE STRUCK GOLD ERROR</u> 1919</p> <p>Columbia 5 Pesos double struck in the collar. 1st strike normal. 2nd off center and rotated a few degrees. Double rim. Design partially obliterated on 1st strike. All gold errors are rare and this one is no exception. There are not more than two other double struck gold coins</p> <p style="text-align: right;">\$890</p>	  <p>(PROOF) <u>CENT ON DIME</u> 19683</p> <p>Struck on a proof clad dime blank planchet. Full frosted obverse. Gem mirror finish. Very scarce</p> <p style="text-align: right;">\$750</p> <p>BU <u>50c/10c CLAD</u> 1969D</p> <p>Struck on a clad dime blank planchet. The rev is uniface since it was struck through a blank. This off-metal has a rim that is extremely high @ koltit 6. Scarce w/ date</p> <p style="text-align: right;">\$200</p>  <p>BU <u>TRIPLE STRUCK</u> ND</p> <p>This Jefferson nickel is larger than a Kennedy half dollar. It is triple struck w/ one date. Tremendous broadstruck uniface reverse</p> <p style="text-align: right;">SCARCE \$150</p>
  <p>BU <u>IKE OFF METAL</u> 1974D</p> <p>Identical to the Ike off metal photographed on page #9. The date on this one is 1974D. Most known are dated 1972D. Partial date is visible.</p> <p style="text-align: right;">\$1,250</p> <p>BU <u>GOLD ERROR</u> 1975</p> <p>A one ounce Krugermund gold coin with a full partial collar around the rim. Very rare, GEN</p> <p style="text-align: right;">\$300</p>   <p>BU <u>SMALL DATE SILVER CENT</u> 1960D</p> <p>Cent struck on a silver dime blank planchet. A very rare date from the Denver Mint. Clogged 6</p> <p style="text-align: right;">\$300</p>	  <p>UNC <u>OFF CENTER LARGE CENT</u> 1849</p> <p>Also out of the BOLT Collection. Struck 50% off center @ k-2. Full date. GEN strike UNC</p> <p style="text-align: right;">\$600</p>   <p>BU <u>QUADRUPE STRUCK CAP</u> ND</p> <p>Saddle struck Lincoln Cent over a double struck obverse capped die. Reverse is uniface. Very broadstruck. Obv rim folded over where saddled.</p> <p style="text-align: right;">\$500</p>

1975 Mint Error Catalog

BU OFF CENTER 1¢/10¢ 1960P

Small date Lincoln Cent Struck 60% off center on a silver dime blank planchet. Listed in a book by Michael Kolman. Close inspection reveals it is double struck, over U.C. 1¢ date! UNIQUE \$1,000

BU BROCKAGE NICKEL ND

Incuse brockage obverse 90% with a broadstruck design. As large as a half dollar. FANTASTIC \$75

10.

BU IKE OFF METAL 1974D

Ike Struck on a Commemorative silver Philippine 1 Piso planchet. Weight is 222.2 grains. The content is 90% silver, 10% copper. VERY RARE All of the others are on the regular piso blank \$1,500

BU FRANKLIN ON A DIME ND

Franklin Half dollar struck on a silver dime blank planchet. Partial date is visible. The strike is so strong that you can see the lines on the Liberty Bell. Nice centering. CHOICE \$350

11.

PROOF TRANSITIONAL 1968S

Jefferson Nickel struck in proof on a 1967 10¢ blank from Costa Rica. Weight is 25.5 grains. The only known transitional off metal in proof. \$650

UNC OFF CENTER LARGE CENT ND

Mint State Large Cent Struck 40% off center at kolit 7. Out of the Bolt Collection of Error Coins. This is one of three known mint state off center large cents. Proof like surface. \$500

12.

BU OFF CENTER IKE 1972D

Struck 50% off center at kolit two. Under 10 are known to exist. A strong strike, and with a full date. Dollar errors are very popular. \$750

BU SILVER CENT 1943S

One of the most famous dates since they were in steel instead of copper. This is the nicest cent on dime that I have ever seen. GEM BU \$250

13.

1975 Mint Error Catalog

DOUBLE EAGLE STRUCK ON A CENT

1851 Twenty Dollar Gold Piece struck on a large cent blank planchet. In 1914 it was recorded in the ANS Exposition as part of William Woodin loan display of pattern pieces. Later, it was in the Newcomer collection, and after his death in 1933 it was purchased by Col. Green or Virgil Brand. Eventually it was sold to B. G. Johnson, and then to Dr. J. Hewitt Judd. Judd listed it, with illustration in Appendix B of his pattern book as a mint error. It was Lot #160 in the Catalog of the Judd Collection in 1962 (Kosoff). This American Rarity is conservatively priced.

UNIQUE

\$12,500

14.

INDIAN HEAD CENT STRUCK IN GOLD

One of the most important and famous United States Mint Errors. Struck on a quarter eagle blank. Formerly in the B. G. Johnson and the Col. Green Collections. We purchased the coin as lot #609 of the John A. Beck Collection, auctioned by the Almer Kreisberg Corporation, on January 25, 1975. Dr. Judd lists this coin as one of four known. We paid \$7,750 for the coin and have turned down four firm offers since, the last for \$15,000. This Error is the highlight of any collection of United States Gold Coins. We are proud to offer this extremely rare coin.

\$20,000.00

15.

PROOF

MATCHED SET

1972S

There are 3 pieces to this unique matched set. A) Indent half dollar w/ capped rim B) Obverse elliptical fragment w. incuse brockage reverse C) Clipped proof half dollar from another coin. All three pieces struck together at same time. Frosted obverse with mirror surface on coin A. They fit together perfectly. May I add that unfortunately this beautiful set does not fit into a proof set. The rim on coin A is too high and the clip on coin C is at a 45 degree angle. RARE

\$3,500

16.

BU

BARBER DIME OFF METAL

1901

A Barber Dime struck on a silver Venezuela $\frac{1}{2}$ bolivar planchet. It's weight is 19.29 grains. There are only three known. It is weakly struck giving the appearance of being circulated. RARE

\$400

BU

FRANKLIN OFF METAL

1954

50¢ struck on silver 25¢ blank planchet. CHOICE

\$100

17.

1975 Mint Error Catalog

BU DOUBLE DENOMINATION 1965

Kennedy half struck on a struck clad dime planchet. Much design of the dime shows. BEAUTIFUL \$350

TONED BU BROADSTRUCK 1901

This beautifully broadstruck Barber Dime was in the Bolt Collection of error coins. Blue toning \$75

18.

PROOF GERMAN DIE TRIALS 1949

This pair of obverse and reverse die trials are struck in brass. The reverse is uniface as only one die was tested at a time. These should have been destroyed at the Mint in Germany. I have heard of one other pair but have never seen it. Actual size is approximately one square inch. We are pleased to offer this very unusual set.

\$400

19.

BU SHIELD NICKEL OFF METAL ND

One of the rarest type off-metals to obtain in any condition. Struck on a three-cent planchet. \$850

BU ENGLISH 6 PENCE SET 1964

This matched set contains two coins. The first is a partial incuse brockage, the 2nd off center with a brockage reverse. A lovely matched set. \$75

20.

BU OFF METAL TRANSITIONAL 1964

This Lincoln Cent was struck on a CLAD dime planchet instead of a silver dime planchet. Not only a transitional (clad instead of silver) but also an off metal (1s/10s) Extremely rare & popular. \$1,250

BU ONE PENNY BROCKAGE ND

English double brockage and broadstruck. COPPER \$75

21.

1975 Mint Error Catalog

 <p>BU <u>REV CAP DIE</u> 1964</p> <p>The most fantastic reverse capped die that I've ever seen. The obverse is an incuse brockage. The third photograph shows the extremely high rim that entirely capped the die. Beautifully shaped like a bowl. It has 12 sides. Quite a few round caps are known to exist, but this is the first out-of-round cap that I have ever had the pleasure of owning and selling. There is no question that it is UNIQUE.</p> <p style="text-align: right;">\$100</p> <p style="text-align: center;">22.</p>	 <p>BU <u>IKE OFF METAL</u> 1972D</p> <p>Struck on a Philippine One Piso planchet, 222.2 grains and specific gravity of 8.9 70% copper, 18% zinc, and 12% nickel. The diameter is 33.5 mm. A very popular off-metal. Under 10 known.</p> <p style="text-align: right;">\$1,250</p> <hr/>  <p>PROOF <u>LINCOLN CENT CUD</u> 1972S</p> <p>10% obverse cud @ K-11, 1 of 2 known. Frosted and unfortunately taken out of the proof set.</p> <p style="text-align: right;">\$400</p> <p style="text-align: center;">23.</p>
 <p>UNC <u>INDIAN SILVER CENT</u> 1899</p> <p>Struck on a 1899 Barber Disc. There are about ten Indian silver cents known, but this is the only double denomination. Obliterated design.</p> <p style="text-align: right;">\$1,750</p> <hr/>  <p>BU <u>OFF CENTER FIVE DOLLAR LIBERTY</u> 1900S</p> <p>This beautiful off center gold error recently sold for \$4000.00 Struck 10% off center @ K12 and also slightly broadstruck on type 1 blank.</p> <p style="text-align: right;">\$5000</p> <p style="text-align: center;">24.</p>	 <p>BU <u>IKE ON A HALF</u> ND</p> <p>Ike dollar struck on a United States clad half dollar blank planchet. Nicely centered with a partial showing of the rim. D mintmark shows.</p> <p style="text-align: right;">\$900</p> <hr/>  <p>BU <u>FOLD OVER</u> ND</p> <p>Struck on its edge and then folded over. All of the fold over and edge strike errors are scarce. This Roosevelt dime was also struck 25% out of the collar. An unusual multiple error. CLAD</p> <p style="text-align: right;">\$300</p> <p style="text-align: center;">25.</p>

BUYING MAJOR ERROR COINS & CURRENCY

If you have a single major mint error coin, either a recent issue or an older type coin, or 1,000 Off-Center Cents, please contact us. We stock over 60,000 Major Mint Error Coins and constantly need to purchase Major Error Coins for our clientele (please note that we do not deal in or buy Die Varieties, Damaged Coins, Doubled Dies, Filled Dies, or Die Cracks).

We do buy Major Mint Errors - such as Off-Center, Off-Metals, Double Strikes, Clad Layers missing, Die Caps, Double Denomination, etc.

Because of the many differences in each Error Coin we request that you send scans of your coin(s) to us for our examination and firm offer.

ERROR WORLD

Join the *hottest*
Error Coin Club on the Net!

e r r o r w o r l d c l u b . o r g

The Error World on-line coin club exists for the purpose of advancing the knowledge and the field of error coin collecting.

Error World is dedicated to the promotion, discussion and dissemination of facts and ideas about error coinage, both domestic and world-wide.

Error World exists as a vehicle to bring collectors of both foreign and domestic error coinage together in a professional and relaxed atmosphere where they can exchange information, display photos and engage in lively debate about error coinage.

Error World is a non-profit organization with all revenues being put back into the club to provide improved services to the members of the club.

Error World will, from time to time, accept contributions from designated Patrons in the form of contest prizes, and/or cash to be used to defray club expenses.

Error World will, from time to time, attempt to obtain sponsors from the numismatic field who will bring price saving offers to Error World members.

Frequently Asked Questions

What are proof planchet errors?

This type of error has only occurred on modern coinage. The Philadelphia Mint prepares the proof planchets which are then sent to San Francisco or West Point for striking. A few proof planchets were accidentally mixed in with the regular blanks, and struck by regular dies. Several 1999 SBA dollars have shown up that are either broadstruck or off-center on proof planchets, but struck by regular dies. These coins have extreme proof-like fields and a pitted appearance on the unstruck portion of the blank. These are the characteristics that distinguish this rare and unusual type of mint error.

Frequently Asked Questions

What are experimental strikes?

There are approximately 15 known 1999 State Quarters struck on Experimental Planchets. All five states in the 1999 series (DE, PA, CT, GA and NJ) have been discovered. These Experimental State Quarters have sold for as high as \$10,000 each, depending on which state, the coin's condition and which type of experimental composition was used. There are four known types of experimental compositions which have been discovered so far on 1999 State Quarters.
